Deer Hunting to Remember

The 150 class and larger whitetail bucks is not a mirage it is the real deal. We only take a total of two bucks per year to keep the quality high. The deer eat well on the farm with grain crops and cover. Live water year round with well over 10,000 acres of grasslands, sandhills, and shelter belts!

Don't worry about covering so many acres we have the areas pre-scouted for this semi-guided buck whitetail hunt. You will ,be shown the ranch and where we have seen the biggest bucks. Natural and other blinds. Nebraska allows baiting with certain restrictions.

The amended regulation states that a baited area may not be established from 10 days before the opening of any big game or turkey season and throughout those entire seasons for the purposes of taking big game or turkey. An area within 200 yards of bait is considered baited for 10 days following the removal of all bait. To be legal, both the hunter and the animal must be outside a baited area. For the 2015 fall/winter hunting season, the baiting prohibition period is Aug. 5, 2015-Jan. 31, 2016.

The hunt is the During the best time available the first 5 days of the Rifle season. In addition, since this will be the only deer hunting on the farm, you can hunt anytime between October 1st and December 31 using what ever weapon is legal during the time you hunt. This includes a bow and arrow, a crossbow, a rifle or a muzzleloader if you wish.
