We have a high population of bear in the area and support a 90% success rate annually. Average size of bear around 200 pounds and it is not uncommon to see as many as 3-7 bears in a day's hunt. This is a 5 day hunt. Baiting commences 3 weeks in advance of season opener. (August 15- September 15 ) Trail cam pictures of bears at active baits are provided to the bear hunter prior to hunt. Fishing mid-day welcome!

## **WATERFOWL HUNT'S**

**Hunting in our area is exceptional. From the first northern flights of waterfowl to the height of the whitetail rut, it is a hunt of a life time.**

**DUCK HUNTING** within our lakes and ponds will deliver a great action hunt to the avid duck hunter. Cooling down your barrel and letting a few flocks pass can be the norm. We have a good number of mallard, teal, local wood ducks but it is the habitat (wild rice bays) that allows for several waves of northern flights throughout the fall months to stop in our area to feed. Our area is noted for its exceptional abundance of diver ducks which include ring neck, blue bills, red head and golden eye. At the best times these diver ducks maybe found in flocks of thousands. The two larger boats will be used to shuttle our guests to the hunting areas than transported in the smaller bays with a 14' camouflage boat. We provide decoys, and canoes if needed. Blinds are made from the immediate terrain, and we can assist in duck calling. Check out our rates page, you will find them to be comparably economical.
