

Hunt ID: CO-ElkMDeerAntelope-ENH4AYD-M4OH-O4MT

This area between Craig and Hayden the area known as the golden triangle is so good for elk, deer and antelope its reputation is known in all elk circles. Slots in his hunts seldom open up due to the quality and high success he maintains. You must draw the license because leftovers are seldom available. The cows are reduced down to only \$ 1395 and the bulls down to only \$2795. You will be hunting our private property and we have a lot of game. Our repeat clients take 90% of our hunts every year so we must be doing something right. It is seldom that anyone goes home without meat. Neither elk licenses take

points but you usually have to put in for the draw because usually there are no leftovers available after the draw.

This outfitters reputation is so good he only takes 1 or 2 new hunters per year and those are to replace long time hunters that have gone to that great hunting spot in the sky.

Sink your hiking boot into the dirt that is the private property hunting that this outfitter provides, home of some of The Best Elk Hunting in Western Colorado. You will be hunting the high success unit **GMU441** by Hayden Colorado. His hunts are good, his prices are good, and his rebooking's good, his availability is bad. Have you ever hunted a place and said this is where I want to hunt every year!

When 90% of your seasons clientele say that you only have room for 10% of the hunters you can take available every year. Experience and knowledge are built with over 20 Successful Years in The Outfitting Business. This is a Colorado hunting experience that is both affordable and successful for all hunters. The percentage of repeat customers speaks louder than the kill percentage and low hunting fees. Each year up to 90% of our hunters are returns. We are proud on our reputation of repeat satisfied hunters year after year.

His hunts are for the experienced hunter on private land and semi-guided hunts only. This is what hunters today are looking for. They have been hunting for 10-40 years in the west they know how to do it and just want private land and time to find that wall mounter.

You will be hunting at restively low altitudes for a Colorado hunt only 6000-7,500 feet. This area has a large population of wild life because the ground lies underneath prime feed and cover, and deer, elk and wildlife thrive on it year round. You will be hunting everything from agricultural alfalfa and river bottoms to sage brush and buck brush to aspens and dark timber where these animals spend their days 12 months out of the year.

This outfitter provides the kind of hunts that make for great hunting memories which is why many of his hunters have been hunting with him for over 18 years. It's not just the great professional service that keeps hunters returning year after year but the ratio of successful hunts.

Their knowledge of the property and hunting skills/experience gives hunters an opportunity to maximize the chances of being successful and filling their tag(s). This is one of much reason as to why they have a high kill ratio. The property can be very challenging in places and also very forgiving. They are able to accommodate for all different fitness levels and will make sure that your hunt suits your own personal abilities. The property consists of Alfalfa fields, prime river bottom, pines, quakes and oak brush which are reasons why it would not be uncommon to see 100's of elk.

This outfitters goal is to provide a quality hunting experience for you and your friends so you will keep returning. We find that many hunters don't require guiding, but do to our property requirements we are required to have a guide with some level of service with the hunters for some of the hunt. It is also good because we want to be good neighbors to the private property around us and even though you have a map we want to be in the area in case there are any questions.

Northwest Colorado has for many years had the title of the higher elk concentrations in the world. This area has some of the best antelope and many times over they make the book, The Mule deer in the west have been declining in numbers. This is one area that there is a bright light. Due to us and other placing heavy pressure on predators with Mountain lions being foremost but including coyotes we are

seeing the populations increase every year. Many record class Mule Deer are taken in this corner of the state every year.

Lodging and meals are not provided but are available locally in motels and restaurants in the area.

After booking you will receive their name and phone numbers. After you book the outfitter will call you and answer any additional question and advise you of what unit or GMU's you will be hunting in.

Hunters that hunt with us 1 year have priority over new comers for booking.

The Cow Elk Hunt is a good one catching the elk in the scrub oak and light timber in small easy to get close to herds. The later the better in the season and the cow only goes until 12/31 of each year.

The cow hunt is guided on private land and if you can shoot you will bring home an elk during this 1-2 day hunt.

Note all licenses for this are require that you put in for the draw but do not require points to have a successful draw.
