

**Hunt ID: IL-WDeerTurkey-All-BWW-Brett**

**Big Illinois buck are yours for the taking. Don't miss out this outfitter book full early every year.**

**This outfitter is dedicated to improving your hunting adventures year after year. We currently have close to 6000 acres of locally leased private farmland and we are continually adding new properties each year. On some of our properties, we have food plots designed specifically for the whitetail deer and the wild turkey. All other properties are basic farmlands with a variety of terrain from hardwood ridges, CRP fields; river bottoms open fields with grassy draws, etc. Each property has an abundance of grain crops such as corn, soybeans, wheat, oats, clover, CRP plots and alfalfa fields.**

***If whitetails are your game here is an extremely dedicated outfitter with big bucks and a history to prove it.***

**Each property is unique in its own way and has proven its ability to produce trophy whitetails. Each property is monitored throughout the year with trail camera's to help ensure the presence of whitetail deer. We only take a limited number of Archery and Shotgun hunters each year to help increase hunter success and limit the negative effects of over hunting.**

**The best benefit of hunting is that our hunts are scheduled during the major weeks of the peak rutting period for whitetails. Hunters are allowed to scout and shed hunt their hunting sites in the spring free of charge. We feel this gives our hunters that extra edge and helps to ensure that they spend more time hunting during the rut. So with a fresh stand during the highest level of Illinois whitetail rutting activity, combined with the confidence that a hunter needs to stay in the stand. Hunters are sure to succeed. All whitetails are 100% wild and free roaming and are pursued by 100% fair chase.**

**All hunters are allowed to move to different tree stands or ground blinds on their own if they feel it will improve their odds for success, but still have the full assistance of a guide. We have NO trophy fines, NO trophy fees and NO Antler minimums. With a high opportunity rates, average success rates around 60%, great food, good people and a relaxing atmosphere, hunters can count on a having a great time while hunting with us. No hunter is guaranteed a trophy, but with strong scent control practices, combined with the patience and willingness to sit all day, you'll soon understand why it isn't just another outfitter.**

### **Special Update:**

Just enough time for one last notice to get everyone possible out here to take some of these huge bucks we have caught on our trail cams for this year's hunting season. For those not yet headed anywhere this season, we still have just a few openings for this year's Illinois archery Season.

- 1.) A few openings are for our Moon hunt in October from the 9th - 15th. This is a 7 1/2 day bow hunt. What we have been getting on trail cameras will still be in the area on a summer pattern at that time. Cost for this hunt is \$1895 and includes all lodging and meals.
- 2.) A few openings are for our first week of rut archery hunting. Dates for that hunt are Oct 23rd - 28th and cost is \$2300 with all lodging and meals being included. This is the week beginning of seeking and chase phase. Some of the local bucks that we have on trail cam should still be in the mix at that time.
- 3.) As well we still have a few openings for our 5 day Peak rut archery from Nov 13th - 17th. This bow hunt is during the peak of the breeding phase. The hunt cost is \$2095 with all lodging and meals included as well.
- 4.) Last option is for our Late Winter Archery Moon Hunt. This hunt is 7 1/2 Days with all lodging and meals for \$1895. No one is scheduled to hunt during this time and we only take a maximum of 6 hunters to hunt yarded up whitetails. We cut our hunter numbers back to just two properties where we have planted several acres of winter food plots that will have a HIGH number of yarded up whitetails on food sources. There will be a large number of both buck and doe on these two properties at that time. For those wondering, our bucks do not loose their antlers until last week of February through late march. So there will still be plenty of big bucks with horns still attached. Give us a call or email if you are interested in any of these remaining hunts.

The Illinois Whitetail hunting season begins October first and we will be quite busy with the guiding season. So again this will be the last notice for updates until spring after the season begins. So, please leave a message if you do not get an answer and we will get back with you as

soon as we get your phone or email messages. Thanks to all those booked with us this year. We appreciate your support and we look forward to seeing each of you this fall

Just a few more pics before we kick off our Illinois bow season Friday morning. We have a few hunters coming in to hunt the first of October while bucks are still in summer patterns. Be looking for us to send you some success photos from that hunt real soon.

We ran a few trail cams while doing some scouting this last weekend. We are now seeing all bucks in hard bone, rubs and scrapes have been showing up for the last two weeks. As usual some bucks are seemingly starting to become a little more elusive as they are now doing things a little different prior to the peak rut. Cams are now over active scrapes and on the edges of travel corridors. We will send them pics between hunts and as we get them.

**The current remaining openings for this year's hunting season are as follows:**

**ARCHERY HUNTING:**

**16 Spots - 7 Day Early Season Oct 1st - 7th @ \$1895**
