Pay me for what I do best, Guide for successful hunts. Don't pay me as an inn keeper or a cook! The costs of many are escalated to provide, meals and lodging that you can get cheaper and near the hunt site. Some have campers, or stay in local motels. This leaves me to focus 100% on getting you close to the animal you came for. In doing so I have dropped my price by about 1/3rd and my 4 hunter prices, unbeatable!

I have some barn burner prices discounted to what you see below, if you can find better prices let me know and I will go on that hunt myself! We have the game and can put you on it, if you can take it home depend on how well you can shoot.

I do have the best state to hunt in, higher game numbers and lots of success! Our past elk and deer seasons booking dates filled earlier than ever before and the trend is looking the same or more so for this year.

Montana Mule Deer Hunting- Rifle-Early Season October-November

3 DAY HUNT 1x1 MULE DEER HUNTING WITH GUIDE- A trophy hunt to remember and a buck to put on your wall \$3500 reduced down to only..... \$ 2495

If you have a group of buddies that don't need a 100% available guide then this is the hunt for you. We specialize in are semi-guided hunt guiding up to 4 hunters at once. The normal process is built on some hunters moving the deer while others sit at crossing and other ambush spots the deer are pushed to. Deer have a difficult time keeping track of 2 or more hunters at the same time so movement into the gun works extremely well in these well-orchestrated hunts with skilled shooters. Many times we can work this hunt well with older hunters and younger hunter so that some are required to walk less than others.

With Outfitting has over 37 years of experience in Archery and Rifle guided 'fair chase' Montana hunts for Elk, Deer, Black Bear, Antelope, Cougar, Moose, Wolf, Sheep and Mountain Goat in the Spring & Fall seasons.

MONTANA lowers elk & deer license costs, with drawing chances very high. If not successful, we will RE-APPY, and hunt the next year, or transfer to a different hunt. I will take a 50% deposit to hold the dates and hunt you want. **(MUST Apply before March 15 for Elk and Deer, May 1 for Moose, Sheep and Goat, June 1 for Antelope, August 31 for Mountain Lion and 30 days prior to the opening of Spring or Fall Bear seasons).** License and tags are hunters cost, I will help with applications and deadlines.

Licenses

We have 100% success drawing elk and deer combo license makes certain that after you book your hunt a license will be coming in the mail. Good news for hunters!! There is lots of game here. We dropped our prices to make our hunts affordable to the working man as ECONO as possible hunters now cover their own food and lodging cost, which amount to very little, and is readily available locally. I can get discounts on both lodging and food for clients. You have put a roof over your head and fed yourself why have me do it like other outfitters and I would have to have a upcharge to provide it like the others. Instead I have you call a motel that I use every year with nice room continental breakfast when you wake up early along with they will even pack a lunch for you.

NEW! NEW! NEW! LIMITED TIME OFFERS

First, are you a hunter? Do you believe in the fair chase? I mean hunting your game in their habitat, using only the weapon you choose, and beating their instinct to survive? If you are, please read further.

I am a professional hunter; I have been, every day of every season here in Montana since the 70's. I do not hunt for me; I hunt for you, my client. My job has been getting you the chance to harvest the wild game you are after. After this many years, I feel your chances are pretty good hunting with me.

What is the difference between a successful hunter and a non-successful hunter in harvesting an animal.

Shooting Accuracy in a Situation

The one thing that is attributed to harvesting an animal is something that I can't do anything about.. Hunters will fly in have their hunt, yet won't take the time at home to use a box or two of cartridges practicing. They shoot from the bench and the gun shoots well, then they leave with 15 rounds left in the box. I recommend shooting at least 100 rounds before coming to Montana. The ones from the bench don't count toward the 100. Shoot sitting down and even more important lying down so you are comfortable laying down getting a rest for your rifle and shooting accurately. Come home from the

range with a dirty shirt and pants. This is the way to be successful in the west hunting if you come home from Montana with a dirty shirt and pants you will be going home with a set of antlers!

So my new lower prices and longer hunts include:

Experienced guide(s), 4x4 vehicles, game retrieval, game care for taxidermy and hard as you can hunt hunting. Guides will work hard for you, to get you in the game. We start early and hunt all day. It is fair chase, and your success depends a lot on weather, time, some on luck, and a lot in our ability getting you into the game and getting you the opportunity shot.

My idea is this, once you get the tag(s), you should consider giving enough time during the “best” part of the season to make sure you fill that tag. I can now make this happen, in some great fair chase hunting country, and longer hunts and lower prices. My hunting boundaries include an entire national forest! Combo hunts are still available.

The beautiful Bitterroot Mountains and Sapphire Mountains with their majestic peaks are Home to trophy size Elk, Deer, Bear, Mountain Lion, Bighorn Sheep, Moose and Mountain Goat. Our Montana hunting areas are in the Bitterroot and Lolo National Forests of Western Montana. Permitted on a million acres, including areas: 240, 250, 260, 261, 270 and eastern Montana area 700. Guides are licensed and trained in calling, stalking, capeing, skinning, and will get your game to a processor or cold storage. All guides, 4 x 4 vehicles and equipment is provided on guided hunts. All you need is personal gear, weapon, license and tag. (Lodging and meals are separate).

For fair chase Big Game, Montana has lots of big game, great elk hunting, Mule deer, bear hunting, antelope hunting and of course mountain lion hunting success stories. My pledge is to do everything possible and provide opportunities for fair chase animals taken home by satisfied hunters. I will help with your licensing, answer any questions honestly, and provide you a quality hunt.

The areas I hunt in Montana provide little or no pressure during the bugle season for elk. Your chances of scoring on a BIG bull elk, with experienced guides that will hunt in close with you, are higher than 50%. We work hard to get you that perfect archery shot. Guides will do all the bugling and cow calling for you. What a way for you to have the most exciting hunt of your life! Listening to that big bull elk challenge you with a blood curdling bugle and then come in close enough to hit with a rock is something you will always remember for the rest of your life.

(Longer hunts available, if requested and schedule available with a price increase of course.)

I am well aware of the time, effort, and costs that go into planning Big Game Hunts. The success of your hunt, for the most part depends on the knowledge, experience, character and integrity of your Outfitter. I am licensed and insured to operate in Montana. Having been in Business for over 37 years as a full-time Outfitter and Guide I have satisfied clients from all over the globe. My integrity has a record of accomplishment that speaks for itself. All of our hunts in Montana are fair chase. We have the game and we hunt hard for you. I do not guarantee game, but I guarantee we will do our best to provide you with an enjoyable, successful and memorable hunt. "Success is our Quality Experience"

I strictly abide by the Code of Ethics of the National Rifle Association, Montana Outfitters and Guides Associations and the laws and regulations of Montana. Non-hunting companions may accompany hunters if prior arrangements have been made for an additional fee. A complete "What to Bring list" is furnished after you book when the outfitter contacts you.

So my idea is this, once you get the tag, you should consider giving enough time during the "best" part of the season to make sure you fill that tag. I can make this happen, in some great hunting country. My boundaries include an entire national forest!
