

Hunt ID: TX-WDeer-All-YBRAD-RH-UNTERH

Enjoy your own square mile of deer hunting in a Texas hunting lodge that sleeps 4 but it will just be you and your hunting buddy. The cabin is completely furnished with flat screen TV and all of the comforts of home but in a hunting camp location. Outside scattered throughout this prime whitetail habitat in your safe 1 mile by 1 mile high fence facility are 5 blinds and feeders dispersing corn or protein surrounded by ample deer to always keep it interesting. No other hunters will be in the field when you are preventing a shooting hazard.

This is a 2 day hut so set back and pick your deer slowly you will have many to choose from. The owner will be your guide in one of the 5 large 5x7 blind and help you select the correct one for your hunting plan. The discounted plan is to each take a selected 8, 9 or 10 point during your 2 day hunt. The guide will advise you of which ones meet that criteria and which ones do not. There are a few larger deer in the 1 square miles that score much high as in the 150's but they are priced accordingly.

Weapon of choice is muzzleloader, archery or rifle whichever you think your odds of filling with a good whitetail buck is best for you.

This is a great father and son hunt because only two hunters are allowed at one time; this is not a gang shoot. This is not a slam dunk hunt either. These deer have heavy cover and 1 square mile to roam and avoid being seen.

After you have taken your trophy there are facilities available to clean the animals for transporting to the meat locker or home if you would rather. This is a great father son hunt or father daughter hunt because guests can come for free to be with you at the time of your first deer hunt.

Currently the only openings are for the 1st 2 weeks of November and the 1st 3 weeks of December.

The complete 2 day hunt for 1 of the bucks selected for this specials hunt is only \$1995 plus any licensing required per person. For only 6 whitetail bucks we will reduce the price down to only \$ 1495 until we lower the deer count by 6 deer, then we return to the \$ 1995 price.
