Our prices on our site are going to change a little anyways so I would probably not tell the customer about our site just so they don't see two different prices. We had to work with the price a bit because we had to cover our expenses gas, food, etc. I'll have lodging pictures after this weekend. Our Dybowski Sika are really good this year too, running anywhere between 20-25inch. Our Rams are at 30in. Our Scimitar Oryx are averaging between 38-42in. Aoudads are at 30 as well.
