

Hunt ID: TX-WDeerTurkey-All-Childres-ndHookGuna-Pat-Jay

Need your deer fix to get you through the spring and summer here it is, with big north texas bucks to match the opportunity. If you didn't get your wall hanger this fall you can get him now and he is waiting for you. We are located in the north Texas Pan Handle, about 1 hour north of Childress Texas off of the red river.

The trophy whitetail hunts are four days long. The season for this hunt is thru January and February 20th The price of this hunt includes all of the services mentioned except for the hunting license, the shipping of meat and trophies, taxidermy work, lodging and meals. You will be seeing 150-170 inch class bucks during this season. You can shoot 1 trophy buck and all of the does you wish. This is better than the rut because the big bucks are conserving energy but move to the best feed and cover possible. It is not unusual for them to move all day depending on the weather.

This is a \$ 3000 trophy hunt but is reduced down to only \$ 2395 for 4 seats the rest are the \$ 3000 price.

You will receive a 4 day guided hunt with meals and lodging. These whitetail are free ranging on a prime 4,500 acre ranch. We hunt Whitetails in a variety of topography. The high plains region drops off the Caprock into the river breaks of the Red River and the Pease River. This creates several different types of habitat for the deer. We have river bottoms with big cottonwood trees and a few hardwoods. We have big thick mesquite flats that provide lots of cover. There are rolling sand hills with oak brush and tree rows of bois d'arc, china berry, and hackberry. We also have some farmland that meets up with each of the other types of terrain that provide food and transition areas which the deer love.

This hunt consist of going out a minimum of 8 times and we hunt out of elevated blinds, tripods, and ground blinds. We also do some spot and stalk hunts and we like to rattle during the pre-rut and the rut. We have scouting cameras out and we spend countless hours in the field scouting so that we have a pretty good idea about the bucks in the area that we are hunting. We try to educate our hunters about the characteristics of a mature whitetail buck so that they will be able to determine a buck that is a "shooter" and one that is not. We generally take our hunters to a stand in the early morning and afternoon and we spend the middle part of the day either glassing or resting, whichever the hunter prefers.

The bucks tend to move all day during the rut, therefore we encourage any hunter who has the patience to stay in the blind as long as possible. We provide one-on-one guiding when the hunter desires. We provide all transportation in the field and we will pick up and drop off at the airport in Amarillo, Texas. We will care for the game in the field and we have a man that works for us as a guide that is an exceptionally good taxidermist. His prices are very reasonable and hunters that hunt with us will get a discount if they choose to use his services. His work on turkeys and whitetail deer is as good as I have seen. We can ship meat and trophies when necessary.
