Welcome to the center of the world. When you are hunting 10 miles back in you are the only people in the world. We pack in back on horseback where other never get. The horses are gentle and know the way very well because they have been doing this all their lives. Horses like people do well when they are doing what they enjoy. They enjoy the packing or carrying a rider and you are their precious payload while they are doing what they enjoy. It is so familiar to them they could even find the camp in the dark. We also space our hunting trips with dead days in between so that the elk don't even know where we come from. We are so far back in there is no grid. The only thing in there is you, and elk. This keeps our success rate and opportunities high, and you taking home elk. We are hunting San Juan National Forest & Weminuche Wilderness. We are hunting the primitive. That has a lot to with you never seeing any other people except for one that sat across the table with you for breakfast each morning. We don't do the hunt in the morning, then return to go back out to hunt in the evening. We leave before first light,

with a sandwich packed for lunch, and don't return until after sundown. When your hunt is for 5 days you hunt 5 days, not 5 mornings and evenings.

Specializing in deluxe drop camps along with fully guided hunts, allowing their hunters to experience prepared comfort without hassles. Even first time Elk & Deer hunters enjoy excellent success at a very economical cost. We work to make our hunts affordable to the working man, and that is our promise.

After 35 years under my belt I am extremely good at what people don't realize until after the 1<sup>st</sup> day. That is "Finding Elk." With over 30 years of experience in the beautiful San Juan Mountains of Southwest Colorado, has enabled hunters from all walks of life to experience the thrill of a successful Elk hunt.

We keep things small so we can focus on you and getting an elk down and don't spook the elk out the previous season, so you get into fresh elk every time.

With extreme success over the years due to their commitment to the hunters they serve. Even though it is impossible to guarantee success, Myself along with my sons and Guides, do promise to provide you with a clean, comfortable and enjoyable camp, right in the middle of nowhere surrounded by some of the most beautiful elk country in Colorado. With a 90% return rate our hunters know they are gearing up for success.

After a mild 10-mile pack in your hunting habitat ranges from deep, remote, and heavily forested (Aspen and Spruce) canyons, to a beautiful flat mountain top ranging from 8,500 - 11,500 ft, depending on the season dates and where the bulk of the elk are at that time. All the time surrounded by thousands of acres of timber and meadows, providing an ideal environment for both game and hunters.

Each camp is ideally situated in the middle of an excellent hunting area and requires a 1 to 6 hour pack in and out on horseback depending on which camp the elk have surrounded. This is the case for our drop camps and for our guided hunts out of a drop camp.

Our deluxe drop camp or Full-Service Guided Camps, allowing their hunters to experience prepared comfort without hassles. Even first-time elk hunters enjoy excellent success at a very economical cost. On our drop camps Guides not only share their local camp knowledge but also explain topo maps of your hunting area with all the hot spots marked just for your arrival.
