Great Prices, Private and Public land, wherever the game goes, with mostly Low Impact Hunts.

I am welcoming you to a unique hunting experience, one that hunters genuinely enjoy because in most cases we exceed the hunter's expeditions.

The reason we do this is simple, it is my personal goal. I don't want to be just another outfitter I want to exceed my Hunters goal and continue to build lasting friendships. Since I began hunting myself an incredibly early age, I found out first how important it is to take an animal for my hunters. I also found out how much that along with the experience of the hunt, the learning, it is why you continue to tell hunting stories years after the hunt is over, the horns are on the way and the meat is no longer filling that void spot in the freezer.

We have been blessed to hunt an area that trophy animals are quite common. In some cases, it does require points to draw the licenses, but we can help with that. Because of the points there are very few hunters in our area, so you won't be greeted by Blaze Orange hunters as you drive through towns.

On our private land, if you see blaze orange, it is you wearing a cap or vest that is all that is needed in Wyoming.

Our experienced and dedicated guiding is part of our commitment to teamwork approach that has proven to be highly successful. One thing that elevates us over other outfitters is the experienced, knowledgeable, and dedicated guides that we provide. They spend countless hours in the field to ensure that each client can pull the trigger on a big-game trophy. While we cannot guarantee that you will fill your tag, we can guarantee that you will have a unique experience and create lasting
