This outfitter has become extremely successful in hunting Elk, Mule Deer, Whitetail Deer, Sheep, Goat, Cougar, Bobcat, Grizzly Bear and Black Bear in the guiding business for 30 years, starting out at the age of 17, guiding for the local outfitters in the region. His area, Bull River Territory consists of 340 square kilometers. It soon became a very special destination for many American hunters, some returning as many as 15 years in a row, showing a 60% of clientele repeats. With the addition of a second hunting territory in the West Kootenay's offering additional 4400 square kilometers our huntable area becomes great for building trophy animals of all species because the average age of our animal is older. This area is located in the Purcell

Mountain Range 60 miles west of our Bull River area. It is situated about 4.5 hours north of Spokane Washington taking you through northern Idaho. It is the largest guiding territory in the Southeastern corner of British Columbia, encompasses the 80-mile Kootenay Lake. It should be noted that the guiding area has seen very little hunting pressure in the past 20 years and had never been set up to take non-resident hunters. We hunt the SE Corner of BC in Kootenays River just north of Bozeman, Montana. We are less than 100 miles north of the US/Canadian border.

Your transportation during the hunt will be by horses, ATV's or pickup truck whatever is the best way to put you on the trophy you want to take home. This flexibility provides you outstanding shooting opportunities for Big Game Hunting while in a comfortable environment that includes a Central lodge with individual cabins plus satellite camps. Provide guides that have an outstanding knowledge of the 4400 square kilometers British Columbia hunting area plus being highly experienced in the hunting of the numerous Big Game Species. Offer European style cooking with the highest quality foods that is far superior to normal "Camp Food". Adhere to current hunting rules and regulations and insure the safety of all hunters plus follow the Guide Outfitters "Code of Ethics and Standards"
