Hunting in Saskatchewan Canada for Elk, Whitetail Deer, Bison and Wild Boar

Your Hunt will put you in a place that you will find that MASSIVE CANADIAN TROPHY ELK you have always dreamed about.

Thank you for your interest in us and our HUGE Bull Elk hunts in particular. I would like to tell you a bit about our operation, and what benefits our hunts can offer you, and the low special rate we extend to "Outdoorsmen" referred guests!

Elk Hunting: Our Elk are free roaming on over a thousand combined acres of heavily forest, diversified terrain, which makes your hunt a prime challenging experience. You will experience real hunting with a 100% success rate, and every trophy will easily be eligible for the SCI record books. Add that HUGE trophy elk to your trophy room this year with the smile of a good hunt.

About Us: We are a small personal hunting operation; we understand that customer satisfaction is the key to our success. I have been personally guiding for 20 years, and the few guides we have that help us are like family, and have been with us for many years. We take a minimum amount of hunters each year, with the maximum amount of hunters in camp at any one time being 4. We try to give each hunter

or group of hunter's exclusive use of the estate, with loads of 'elbow room'. Our main goal is to provide a quality hunt experience, with top of the line trophy big game for each hunter. Our secondary goal is to offer you a comfortable modern rustic log cabin lodge, with a relaxed "homey" atmosphere, located inside the hunting area. We specialize in personal attention to each hunter, giving you, our guest, a great hunting experience and a feeling that you received more than your monies worth.

The Elk Herds: I would also like to point out that we choose our bull Elk for our guests out of combined herds of over 2000 animals. They are turned out onto the preserve in June or July, and only mature 8+ year old bulls are chosen based on antler spread, classic tine length and shape, and all bulls have dark capes, long beards and mature features. Our preserve is 100% forested; it has a wide diversity of mature timber, brush, springs, rolling hills, and creeks. This diversity provides a very challenging hunt and a spectacular setting to hunt in. The many wallows and dense conifer timber give our bulls the distinction of having the darkest antler color available anywhere, a rich chocolate brown, with highly polished tips, or "ivory-tines" as we like to call them. The benefit is your lifelong enjoyment of the most spectacular elk mount in your trophy room you will ever see. The forest and terrain is very diversified and dense, allowing many places for the elk to elude hunters and guides. Your experience will be a hunt, and not merely a shoot. Average shots are 20-40 yards and we specialize in archery and limited range weapons.

Quality Hunt: All that said, what's it cost to hunt here? There is an exceptional quality hunt waiting for you and your hunting partner, a track record of 100% kill success to date, as well all our trophy fees are very competitive and some of the lowest in Canada.

We have our "Myth Hunt" on sale, harvest a 325-399 class Bull Elk for only \$3,950.00, and we will waive the "Preserve Fees", a further savings value of \$650.00! You will return home with a quality hunt experience and BIG trophy class Elk for the wall! If you do not shoot an elk, you do not pay the trophy fee, all fully guaranteed! Also Whitetail Deer, Bison, and Wild Boar are available to you as well.
