Are you looking for a giant wall hanger of a bull elk and realize that many during their career of hunting never take home a bull elk over 300 inch, and count themselves as lucky because many never take home bull elk at all.

As the aging process continues for a hunter he finds his heart is into the hunt but the legs and body are losing the muscle and agility it requires to leap tall buildings in a single bound anymore. At that point if he wants that bull on the wall where his mother-in-law's picture currently hangs he needs to take some drastic measure. The pain for not getting a bull is to look at his Mother-in-law's pictures every time he walks into his game room or den. Such a pain no hunter should ever have to endure.

There is a place in Colorado where you can hunt the bull that the hunting world owes you. All of those cold mornings in the timber, those pitch black nights that you walked back to camp in heavy snowfall with large flakes falling all around you.

**You have earned that bull and here is where you get him.** The hunt is guided with meals and lodging. Don't be surprised if you are 1 on 1 with a great guide and are the only one hunting within the ranch's wide boundaries.

You won't be climbing snowy mountains at 04:30 in the morning. If the weather changes to more than you want to endure, that is fine spend some more time in the lodge because you want to, not because you have to.

**Your guide designs the hunt around your needs ability and desires for your hunt of a lifetime.** You will hunt one on one with a guide that knows these animals and the mountains they inhabit. We guarantee 100% success and satisfaction; your guide will get you into position to shoot your trophy elk. We use four wheel drive vehicles and ATV's for transportation around the ranch. Most hunting trips are usually three days.

**The beauty in real elk country is the amazing Jaw Dropping Scenery that quickly builds memories.** This may not seem like a big deal but most elk ranches are not in the high mountains. We have a true high mountain ranch located at 9200 feet, is near Crawford Colorado. You would be hard pressed to find a more beautiful Trophy Elk Ranch anywhere in the world. The mountainous terrain contains spruce and aspen covered slopes with open alpine parks. Located only a few miles from Black Canyon National Park and we are located within easy driving distance of three airports. We will pick up guests at any of these airports, or a rental vehicle can be arranged.

Our greatest attribute to our hunting operation is our location. We are surrounded by 12,000 to 14,000 foot mountains. The San Juan range on our south and the Collegiate Range to the east and the West Elk mountains are north and west of the ranch.

Your dream hunt comprises hunting in the Colorado high country; you have found your dream area. We are in the heart of aspen, spruce and alpine park country, big canyons and breathtaking high country beauty in all directions. Our median elevation is 8700 feet and go up to 10,000 feet. This ranch is the epitome of elk country and has a native herd that continually produces trophy animals year after year.
