Here is a great opportunity to hunt Kansas and save some money at the same time. This outfitter has some fantastic areas to hunt that hold some big Kansas bucks! Take advantage of one of these great offers!!!

Kansas Whitetail Archery Adventure – We have limited Archery openings left for this season. If you are looking for a professionally managed deer habitat to hunt on, then this is it.

You can expect to see Whitetail that average in the 150" range.

Hunting in our pristine, Kansas area is what it used to be like in other areas before becoming overcrowded and over-hunted. A quick check of the Pope&Young record books will reveal that in the top 100 entries Kansas currently ranks #1 in the non-typical category and #2 in the typical whitetail category. The record speaks for itself. Kansas Hunting is excellent!

Many people picture Kansas as a flat prairie and are so surprised to find the picturesque, wooded valleys and excellent game habitat of this undiscovered Flint Hills region of South Central Kansas.

Trophy deer are common. Cover is excellent. Other game is abundant. The local people are warm, friendly and helpful. Return trips become a welcome compulsion.

Our area has abundant and high quality game. We have many years of experience in this area as hunters of deer and the other wildlife. We know the land well and understand the wildlife and their habits. We can put you in the midst of high quality game.
