

Hunt ID: NE-6027

A steal at any price a semi-guided to DIY hunt for Whitetail or Mule deer 90%-10% currently and as the whitetail over populate the area the mule deer are slowly disappearing. If you are looking for Mule Deer, this is not the best place. If you are looking for whitetail you have come to the right place, in the famous game rich Niobrara River Valley. The valley is the perfect mixture for deer quantity and quality growth. A mixture of river bottom and creeks, grain crops, alfalfa, and cattle for year-round water and salt licks. In addition, this is all private land hunting. The deer license is for Mule Deer or Whitetail and they are easy to apply for. Because of the lack of public land in the unit and the high deer population licenses are always left over.

You will be hunting ranch/farm/timber land. These deer have it all, so you must think of all options. Find where the feed, find where they bed, and you will quickly find a bullet hole behind their shoulder. The agricultural crops are mostly pasture, corn or alfalfa and they bed in the wood lots. These ranches have bucks moving in and out all of the time and since the rifle hunt is during the rut it is like a freeway using the Niobrara River.

Find the does and you will find bucks. You are on a 4920-acre ranch what could be better.

The first 8 hunters booked get their choice of the first 4 days of the season or the last 4 days of the season so book soon if you have a preference. There is the beauty of being first, but also hunting during the peak of the rut is during the last 4 days of the season. The hunters of the last 4 days also with the property owner's permission have the option to shoot a turkey for \$300 and a doe whitetail for \$250. This can only take place after everyone has shot their bucks.

A kill rate of 100% on rifle, 85% Muzzleloader, and 45% Archery speaks for itself.

© Copyright Discounted Hunting Adventures llc

Keep in mind that Nebraska has a 30-day Muzzleloader season and the Muzzleloader configuration is unrestricted, any scope is legal at in December you catch the end of the 1st rut and all of the second rut, plus cover is knocked down and they are easy to pattern plus feeder trails are used everyday since they must travel to feed every day.

For the archery Crossbows are legal for anyone during the archery season and the season and the archery season is 2 ½ months long!

Mule deer and whitetail are on separate ranches and in different habitat. This is broken down into 5 different ranches, so have mule deer and some have whitetail.

Expect 8 to 10 points in both Mule deer and Whitetail is the norm but a neighbor shot a high 190 muley that Cabela's wanted. So, we won't promise you that you will be held back to a 10 point.

There is lodging with the hunt after you are tired from hunting hundreds, of hundreds of acres.

This is a 4 day Do it yourself, landowner gives the hunters a map of the property and fences, then takes them on a tour of the property showing fences, stands, where deer.
