Trophy Mule Deer

Hunt the Primera Mule Deer Hunt in New Mexico. We offer mule deer hunts during Rut and Pre-Rut, hunts where we manage and take great bucks every year. The only place better is Old Mexico, but all those hunts are 1 on 1 hunts where lodging is in a resort town and the bucks almost always make the BC Minimum or larger.

At a more affordable price we have hunts near Roswell New Mexico on private land that are broken down into Rut and Pre-Rut hunts depending on the days. They are 5-day hunts with transportation, meals and lodging guided 2 on 1 unless you want a 1 on 1 hunt.

This hunt is located out of Santa Rosa, New Mexico on a private Ranch producing Mule Deer in the 175-190 class bucks in most instances. We have an excellent success rate on this private ranch, managed for big bucks.

This ranch is almost 80,000 acres in size with Deer and Antelope. Pines and Junipers for the Mule Deer and grassland for the antelope all around 5,500 feet to 6,500 feet depending which animal you are hunting.

The elevation on the ranch is approximately 6,000 feet. The area is a mixture of Pinon/Juniper, Ponderosa Pine, and high desert grasslands. We have hunted and managed this ranch since 1991 and we have consistently had an excellent success rate on mature mule deer on this ranch.

We have **special Trophy permits** for the ranch that allow us to hunt until mid-December which allows us to hunt all through the rut when the big crafty bucks lose their awareness level which is to the hunter's advantage if he wants a big trophy mule deer for his wall.

These hunts book in advance since they are so highly regarded for the exceptional and continual size of these bucks. We have pre-rut and rut hunts available until they book.

The hunt includes, meals, courtesy transportation during the hunt, guide, and caping for trophy preparation of the animal.

As a hunter we have the voucher, but you are responsible for your license, personal gear, weapon, motel costs and transportation to and from the camp.

Sand Hills Region Unit 33

We also have hunts in the New Mexico Sand Hills region by Caprock, New Mexico.

You will be hunting a New Mexico Quality Mule Deer area. We have broken the 195" barrier in the past here. Keep in mind this area has an extremely low Mule Deer population per square mile but is well known for its quality bucks.

These hunts are spot and stalk with a lot of time glassing for these big bucks then outlining a stalk route.
