DEGREE OF PHYSICAL EXERTION: Slight to moderate.

We offer all types depending on the hunter. Ground blinds, pop up blinds, Tower stands and there are feeders on the property. We only do 1:1 spot and stalk with clients hunting trophy's when planned, we hunt 200 acres that is High Fenced so ranch is not big enough to do this with other hunters on the ranch. Ranch hunts big with the terrain we have. The land is all private and the degree of exertion is slight to moderate.

You will be hunting 200 acres of High Fence and terrain is moderate to canyons and creeks, we also have an additional 200 acres next to our ranch we work with that is also high fenced.

We are not tied to season dates and hunt year round on most but the Stag, Elk, and Fallow drop their horns around lat Jan-Feb. Axis Bucks are different we have at times bucks with hard horn, dropping horns and just started growing horns at the same time.
