Got Bulls! We sure Do! We also have some great Private land Guided hunts that are easy on the pocketbook. We have extremely limited hunting for 12,000 acres, but we do take some great animals. I work cattle around these animals 12 months a year, I see them just doing my job. They are accustomed to me and my vehicles. Filling a tag is easy. In fact, it is easier to fill a tag then get a license. I have ways to get you licenses, as the

antelope license can be drawn with zero points. You can increase your odds in how you apply, it is a science of the odds. I completely swear with the way Watchdog get you the licenses need to get you a license in the Western States every year of your life. That is the Magic, which get you in the truck with me and fills that hard to get license and put a big bull or buck on your wall. Let me tell you where this ranch is hidden in the great state of Wyoming.

In the center of Wyoming North of I-70 and West of I-25 is 12,000 acres where limited number of hunters are allowed to enjoy the unique and successful piece of heaven for anyone looking for antelope, deer, and elk in the foothills with the access to the prime mountains are, and down to the eastern plains of the Medicine Bow mountains. Because of the expanse that it covers, the prime habitat and the limited hunting the quality is good, and the owner wants to see his hunters take home a sample of this quality.

You can see from the details below that this is the hunt that you dreamed about and now it is available for a limited number of hunters to go home with meat, horns and a smile, from a great hunt.
