

Hunt ID: 9020-WY-G-M-ElkMDeerWDeerAntelope-FA3LOBUF-O2CW-D2EWA-Great Combo Pricing

Welcome to Wonderful Wyoming and its game rich hunting grounds that we pursue Elk, Mule Deer, whitetail deer and pronghorn antelope. The area I hunt is some of the best in Wyoming and it provides me with the mountains, foothills and plains and the best habitat for each animal at the base of the famous Bighorn Mountains. We hunt antelope in Unit 20, mule deer in Region Y, whitetail deer in Region Y, and elk in unit 34.

All of our hunts are fully guided and extremely successful with most of them being on private land. With 25 years of guiding experience and years of hunting before that I won't say I have seen it all but I will say I have seen many years' worth. Our primary hunting technique is the favorite of most, the spot and stalk method in the west. All of our hunts are 2 hunters for 1 guide unless special arrangements are made previously.

Here is a Private Land guided hunt in Wyoming out of Gillette that has a buck antelope and a free doe antelope hunt for \$ 1995 reduced down to only \$1495.

Also Mule Deer, Whitetail Deer and Trophy Elk.

The deer antelope combo is also a great hunt, and with private land hunting the antelope and deer outnumber the hunters, not like with public land where the hunters outnumber the deer and antelope. This is in some of the greatest areas of concentrations of deer and antelope in Wyoming so the hunting is fantastic as long as you don't mind seeing deer and antelope around every bend. The elk are being great because it is a piece of private land that the elk are managed for size on this land and it shows it.

Our goal is to provide you with the hunt of a lifetime and an animal to take home to prove it. You will see that our guides will give you a 100% effort to fill your tag. I will accompany most hunts, and I am always reachable by phone when you are hunting. Our Deer and Antelope hunts are both 3 days hunts. Our combo hunts are usually 5-day hunts.

Antelope hunting consists of 2 hunters with one guide in a 4 wheel drive vehicle, glassing at different spots for buck antelope. We have a vast number of antelope on our plains ground so you will have a lot to select from. Your guide will do his best to estimate the size of the buck on the hoof, but remember it is just estimation. Shoot the buck that you like and he is yours. Antelope are brought back and skinned then can be taken to a processor or go home with you whichever you choose.

Our elk hunts are a 5 day spot and stalk hunt. We hunt an exceptional area of private ground so our quality is exceptional.

Price List & Hunting Dates

RIFLE HUNTS		
Hunt	Days	Price

=====

Lodging

In the town, lodging is available at the Hampton Inn, Holiday Inn, and many other motels. There are also several campgrounds including the KOA, along with 4 other camp grounds as well.

Application Dates

Elk: January 1 - January 31

Deer: January 1 – May 30

Antelope: January 1 – May 30

Keep this in mind when you are booking a hunt.

You will need to apply for a license for the hunt and leftover license are not always available after the first draw. Book the hunt before applying so you have a hunt to use your license

When hunting with us there are a few items that are best to bring with you to improve your comfort during the hunt and increase your success rate.

What to Bring on your hunt

- License & Conservation Stamp - Make sure license and stamp are signed. They should be carried and in your possession at all times while hunting.
- Rifle - 270, 30-06, 25-06, 7MM or one of the 300 Magnums are all good calibers. Expect shots from 50 yards to 300 yards. Whatever the caliber, know your gun! Get out and Shoot! Bring adequate ammunition for firearms. A scope in 3-9, 4-12 or 4-16 is great for this type of shooting.
- Personal Gear/Clothing - This list could go on forever, but crucial items are warm clothes that can be put on in layers as temperatures fluctuate; two pairs of boots and some sort of rain gear is necessary, Cap or hat with ear flaps, lightweight & warm gloves. Rifle hunters need blaze orange safety wear.
- Binoculars - As this is fairly open country, you can locate game with a good pair of binoculars. Spotting scopes are also a handy item.
- Backpack-Survival Kit - Make sure you have items with you at all times; compass, fire starting

material, knife, folding saw, space blanket, orange ribbon for marking trail down to game, flashlights and rope.

Cell phones will work in most of the areas that you will be hunting, but are not necessary.

- Miscellaneous Items - snacks; items to carry with you while hunting; first aid items (we have a first aid box in camp); cold/flu medications come in handy; flashlights; cameras; game bags and a cow call or bugle if you are familiar with their use.

The weapon you choose for your hunt is a personal choice; however, we cannot stress enough to practice, practice, and practice. The hunt is not a good time to find out you cannot shoot accurately.

Sighting in at home is mandatory but practice is what can be the deciding factor as to what you bring home, or not. I can't stress that enough. We can put you on the animal but only you can pull the trigger.
